PROFESSIONAL SUMMARY

Frontend-focused Software Developer with 5+ years of experience designing, building and maintaining production web applications with Angular and React. Skilled in TypeScript, JavaScript, HTML and CSS, with hands-on experience in state management (RxJS, NgRx, Signals), REST API integration, unit testing and production monitoring. Experienced in integrating AI/LLM solutions into commercial applications and automating workflows with coding agents. Backend experience with Java/Spring. Strong track record of delivering features from Figma design to production, fixing production bugs and improving application architecture.

WORK EXPERIENCE

Frontend Software Developer — Semrush

03/2023 – Present

- Developed new features in an Angular and TypeScript application based on Figma designs, as part of a cross-functional development team.
- Maintained and monitored the existing Angular application, using Sentry to track and resolve production errors, and kept project dependencies up to date.
- Built a React application using TypeScript, TanStack Query, TailwindCSS and Zod for form and API response validation.
- Integrated AI/LLM solutions into applications across the company's product portfolio.
- Wrote unit tests to ensure code quality and reliability.
- Diagnosed and fixed production bugs across Angular and React codebases.

Full Stack Software Developer — TU EUROPA

03/2021 – 12/2023

- Worked as part of a development team following SCRUM methodology, maintaining existing Java and Angular projects.
- Acted as lead developer responsible for the design and development of an Angular application for insurance claim handling.
- Implemented a new Angular architecture on existing projects, including setting up an NX Workspace monorepo and rewriting core functionality to maintain backwards compatibility.

ADDITIONAL EXPERIENCE

Customer Service (Self-Employed) — Self-Employed

2018 – 2020

- Handled insurance claims for private clients.

Customer Service / Repair Shop Manager — WTC sp. z o.o.

2015 – 2018

- Handled insurance and warranty claims; managed repair shop operations.

Customer Service — Hornet sp. z o.o.

2007 – 2015

- Handled insurance and warranty claims and general customer service.

IT Technician — Askom sp. z o.o.

2007

- Tested computer hardware and assembled computers.

SKILLS

Languages: JavaScript, TypeScript, Java

Frontend: Angular 2+ (RxJS, NgRx, Signals, Angular Material CDK, WebSockets), React (TanStack Query), HTML, CSS, TailwindCSS, Zod

Backend: Java/Spring — CRUD applications with database support, Spring Security, JWT, OAuth

Tools & Platforms: GCP, Docker, Git, Jira, Sentry

AI / LLM: Running and configuring local LLMs; daily use of coding agents (Claude, OpenCode, Cursor, Pi); building apps that use LLMs for task automation (OCR, translation, etc.)

Design: CorelDRAW, basic Adobe Photoshop

SOFT SKILLS

Strong interpersonal skills, open-minded and collaborative, fast learner, adaptable to new tools and technologies.

EDUCATION

Bachelor of Science in Economics — University of Wrocław (2004 – 2007)

IT Specialist in Computer Graphics and Multimedia — Studium Ekonomii i Biznesu (2004 – 2007)

LANGUAGES

English — Professional working proficiency

INTERESTS

Music, playing guitar, computers, programming, motorcycles.
